#### **What is a Community Reporter?**

Interviews with four people who came to the Brighton & Hove Community Reporters Monthly Meetup in April 2010. Jo Wdsworth, Paula Snyder, Ron Sharrat and Paul Jackson. Find out what they think community reporting is all about. <https://youtu.be/anmVKFiCT3U>

#### **Yzer reporting - Don't sell our council houses protest Bristol**

<https://youtu.be/jjrnHBxISRI>

#### **Bristol Community Rehabilitation Service**

Bristol Mental Health Community Rehabilitation Service.

<https://youtu.be/xeZvFrStmW0>

#### **Introduction to The Bristol Cable**

Find out more on our website <http://www.thebristolcable.org/>

The Bristol Cable is a citizen media co-operative, created, owned and produced by people in the city. We aim to build the tools and platform for people to engage with their communities, the city and the wider world, through journalism; creating a multimedia website and a monthly free print edition. As a democratic collective, The Bristol Cable is an innovative blend of community action and journalism; an essential resource that performs a crucial societal function where the corporate press can not - accountable, independent, quality journalism. People will be able to report on their own experiences, explore important issues, develop and promote skills and positive ideas, and hold power to account. This can be the first in a powerful movement of co-operatively owned and independently produced local media. Can you contribute to making it happen?
